

Music workshop slated

By IFAN PAYNE
Music Critic

Music events in Manhattan this week commence on Monday with the start of a four-day workshop on Microcomputer Applications in Music. The workshop is being given by Professor Hanley Jackson at the KSU Music Department.

Tuesday is band day at Arts in the Park as the Manhattan Municipal Band, under the direction of Larry Norvell, takes the stage for their weekly concert. This one will feature music by Strauss and Don Gillis and an all-out drum war.

The popular local rock group Black Frost will be on the City park stage for Arts in the Park on Thursday evening. Black Frost has long been

one of the more accomplished rock groups in this area.

The national touring show for the week will be Eternity, a Christian group that has recently returned from a successful tour to South America.

All concerts start at 8 p.m.

THINK FIRST!
